

EUROSTANDARD TRACK

ID 15

EUROSTANDARD TRACK can be selected for either non-dimmable spotlights or applications needing bluetooth control. **The EUROSTANDARD PLUS TRACK DALI** has an extra 2 conductors for use in DALI applications and is also offered in a **H-section version**, which can be used to add uplighting. All versions come in different lengths with mounting options which include **direct, recessed, recessed trimless and suspended installation**. The comprehensive range of compatible products and accessories complete this versatile product.

Specifications

- The conductors are integrated in the track by means of rigid extruded profile made from insulating material guaranteeing high dielectric strength
- The 3 separate circuits consisting of 3 phase conductors and a common neutral allow for 3 lighting configurations to be switched individually
- The 3-phase supply allows for an overall loading of 16A (10500 VA) which can be divided among the 3 circuits (3x3500 VA)
- The earth, positioned on the side, leads to an asymmetrical structure of the track. As a consequence couplers must be selected carefully

Body

- Aluminum

Colors

- White RAL 9003 - code B
- Black RAL 9011 - code C8
