Intro Esse-Ci

1984 → 2026

1984
Esse-Ci is founded
Founded in 1984, drawing on the founders' expertise in metalworking and technical design.

1995
Sterile environments
Dedicated lighting products are introduced.

1998
Quality certification
Esse-Ci obtained **ISO 9001 certification** for its quality management system and the **ENEC mark**.

2000
Architectural lighting
Entry into the architectural market.

2002
Quality Management System
Esse-Ci was among the first in Italy to extend its Quality Management System certification to VISION 2000.

2008
Semplice
First product combining original design and technology.

2010
LED technology
Introducing LED lighting, expanding its portfolio with downlights and spotlights.

2014
From **Indoor to Outdoor** Lighting
Esse-Ci completed its indoor lighting range and took its first steps into outdoor lighting.

2024
Forty years of Esse-Ci
Four decades of light combining Italian design and manufacturing expertise with continuous research into new technologies and lighting solutions.

2026
A year of investment
A photovoltaic system designed to cover 100% of our energy needs, redesigned showroom and office spaces, and a refreshed brand identity.

esse-ci
LIVING LIGHT

Application target

We believe in light as a design tool.

For this reason, technicians, designers, and lighting designers work together to develop architectural and decorative indoor and outdoor collections, as well as special bespoke solutions.

From small-scale installations to large projects, **we work alongside professionals to transform specific requirements into** reliable, precise, and integrated **lighting systems.**

indoor

outdoor

Public buildings

Retail & supermarkets

Offices / Commercial buildings

Schools & Universities

Museums & Art Galleries

Showrooms

Healthcare & Wellbeing

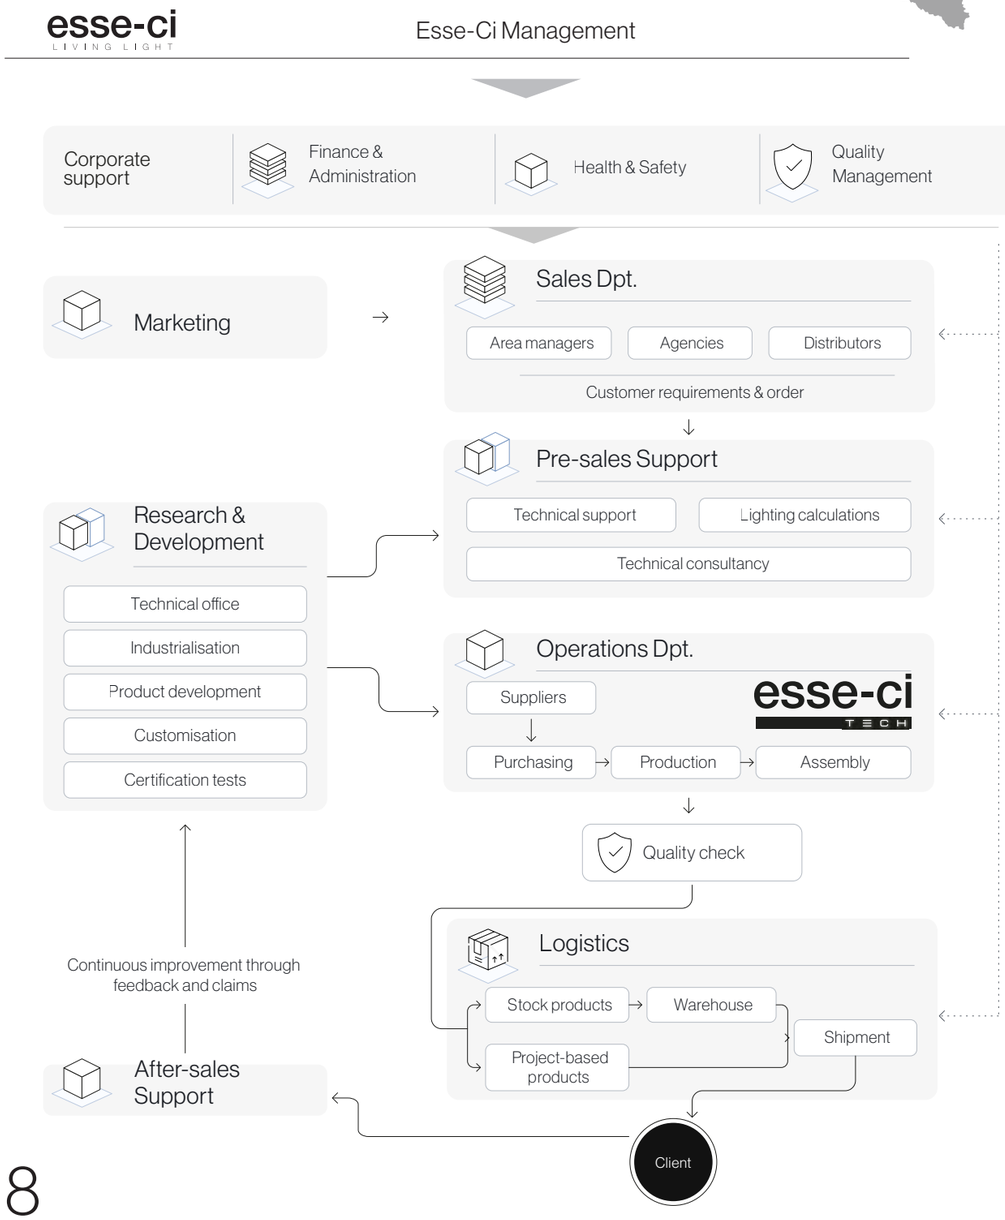

Large Areas & Industrial Spaces

Orgnisation management

Our roots are our strength.

At the **gates of Padua**, we combine metalworking know-how with Italian design sensitivity, creating lighting solutions that are **Made in Italy.**

Services

Every project deserves individual attention.

We combine technical expertise, design insight and advanced lighting technology to create bespoke solutions. From initial assessment to final design, we work closely with you to bring your ideas to life.

TAILORED CONSULTANCY

- preliminary analysis
- definition of the most suitable solution

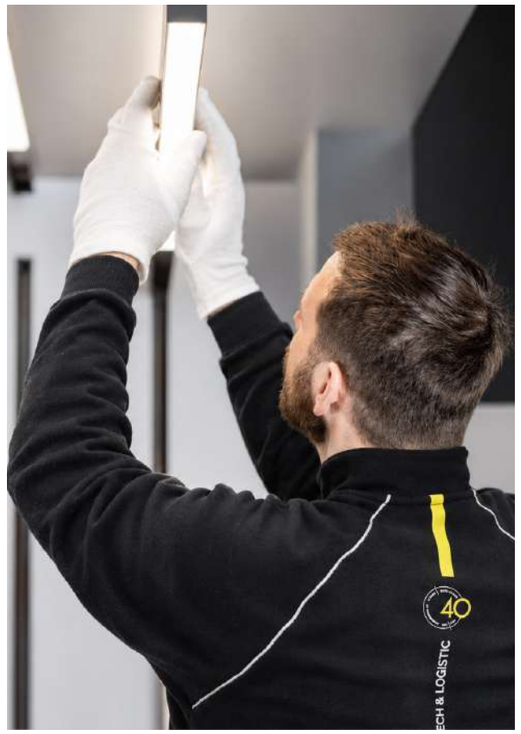

LIGHTING DESIGN & DIALUX STUDIES

- project-specific lighting studies
- DIALux design

BRONZE MEMBER DX 2026

PRE & AFTER-SALES SUPPORT

- assistance with installation, programming and system management

esse-ci LIVING LIGHT

Esse-Ci TECH is our in-house machining workshop and technical laboratory, where we process profiles for our luminaires.
Precision cutting, drilling and milling give us the flexibility to produce components **for standard and bespoke lighting solutions**.

Sustainability

For Esse-Ci, **sustainability** means **designing efficient, durable and easily integrated luminaires** that reduce waste, energy consumption and the need for replacement throughout their life cycle.

This commitment extends to **environmental**, **social** and **governance** matters, assessed by Warrant Hub through a **GRI-referenced ESG scoring model**, and guides the company towards increasingly responsible and measurable growth.

Custom Design

We bring your vision to light, shaping ideas into lighting solutions that give every space its own character.

1 Identified initial need

2 Analysis, Concept & Design

- Custom solution
- Develop a new product

3 Integrated R&D

- Mechanical design
- Lighting engineering
- Electronics
- Mock-up

4 Industrialisation

5 Mass or bespoke production

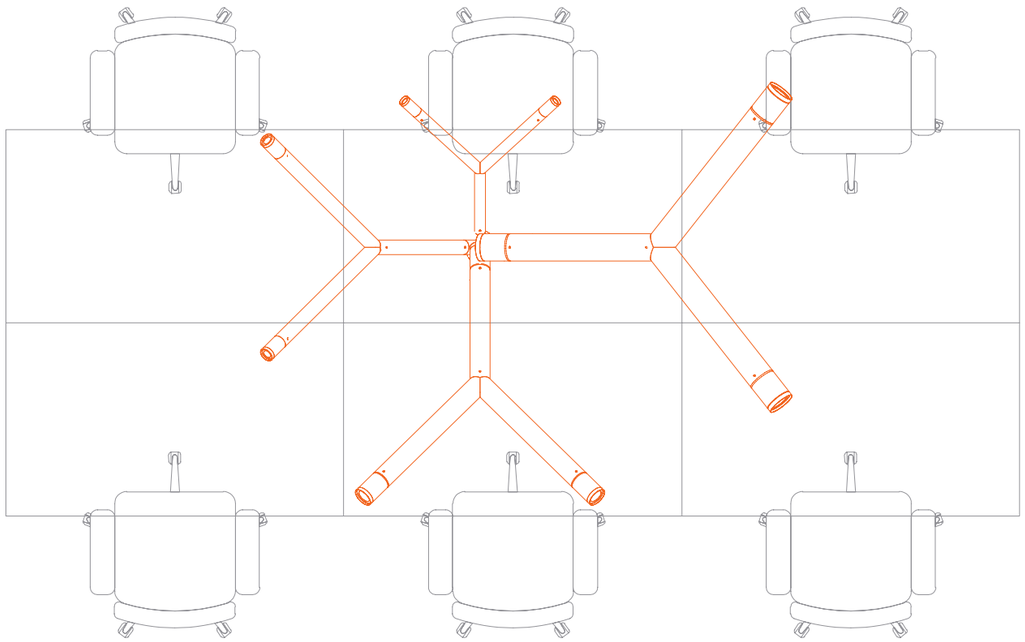

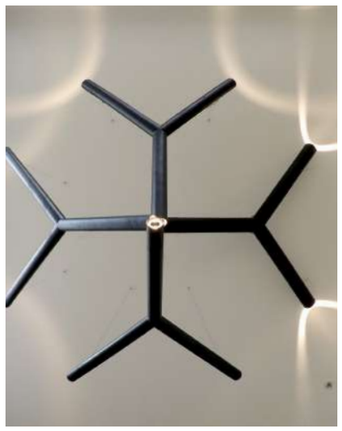

Custom Design

We combine technical expertise and creative vision to shape light with precision, comfort and lasting quality. Our **indoor and outdoor solutions** transform spaces and atmospheres, balancing performance with versatility and ease of use.

Together with designers who share our vision, **we create lighting that goes beyond function** to inspire and evoke emotion.
