05AAVTL: 1441mm
Transparent protective glass.

CONTINUOUS ROWS INSTALLATION EXAMPLE

Continuous rows installation is very easy thanks to the practical connectors included.

End cap.

Male to female connectors.

EXAMPLE OF CONTINUOUS ROWS INSTALLATION WITH 05AA11 ACCESSORY

Thanks to the 05AA11 accessory you can install the devices in suspended continuous line by avoiding the use of busbars or cable raceways.

This bracket serves as the mechanical joining, allows the masking of the connection cable between 2 devices and reduces the suspension points. It is click fixed on the devices and can be cut at the construction site.
